

Tactical Dividend and Momentum Fund

Class A	HTDAX
Class C	HTDCX
Class I	HTDIX
Class R	HTDRX

a Series of Two Roads Shared Trust (the “Fund”)

**Supplement dated March 14, 2023
to the Prospectus and Statement of Additional Information (the “SAI”) dated November 30, 2022**

This Supplement provides new and additional information beyond that contained in the Prospectus and SAI and should be read in conjunction with the Prospectus and SAI. This Supplement supersedes any information to the contrary in the Prospectus and SAI.

Effective February 27, 2023, Foreside Financial Services, LLC replaced Northern Lights Distributors, LLC as the Fund’s Distributor. Accordingly, effective February 27, 2023 the disclosure in the Fund’s current Prospectus and SAI is amended as follows:

The “HOW TO PURCHASE SHARES – Class A - How to Reduce Your Sales Charge” section on page 13 of the Prospectus is deleted in its entirety and replaced with the following:

How to Reduce Your Sales Charge

You may be eligible to purchase Class A shares at a reduced sales charge. To qualify for these reductions, you must notify the Fund’s distributor, Foreside Financial Services, LLC (the “Distributor”), in writing and supply your account number at the time of purchase.

The “DISTRIBUTION OF SHARES - Distributor” section on page 23 of the Prospectus is deleted in its entirety and replaced with the following:

Distributor: Foreside Financial Services, LLC, located at Three Canal Plaza, Suite 100, Portland, ME 04101 (the “Distributor”), is the distributor for the shares of the Fund. The Distributor is a registered broker-dealer and member of the Financial Industry Regulatory Authority, Inc. (“FINRA”). Shares of the Fund are offered on a continuous basis.

The address for the Fund’s Distributor on the back cover page of the Fund’s Prospectus is replaced in its entirety as follows:

Foreside Financial Services, LLC
Three Canal Plaza, Suite 100
Portland, ME 04101

The “THE DISTRIBUTOR” section beginning on page 33 of the SAI is deleted in its entirety and replaced with the following:

THE DISTRIBUTOR

Foreside Financial Services, LLC, located at Three Canal Plaza, Suite 100, Portland, ME 04101 (the “Distributor”), serves as the principal underwriter and distributor for the shares of the Fund pursuant to an underwriting agreement with the Trust on behalf of the Fund (the “Underwriting Agreement”). The Distributor is registered as a broker-dealer under the Securities Exchange Act of 1934 and each state’s securities laws and is a member of FINRA. The offering of the Fund’s shares is continuous. The Underwriting Agreement

provides that the Distributor, as agent in connection with the distribution of Fund shares, will use reasonable efforts to facilitate the sale of the Fund’s shares.

The Underwriting Agreement provides that, unless sooner terminated, it will continue in effect for two years initially and thereafter shall continue from year to year, subject to annual approval by (a) the Board or a vote of a majority of the outstanding shares, and (b) by a majority of the Trustees who are not interested persons of the Trust or of the Distributor by vote cast in person at a meeting called for the purpose of voting on such approval.

The Underwriting Agreement may be terminated with respect to the Fund at any time, without the payment of any penalty, by vote of a majority of the entire Board of the Trust or by vote of a majority of the outstanding shares of the Fund on 60 days’ written notice to the Distributor, or by the Distributor at any time, without the payment of any penalty, on 60 days’ written notice to the Fund. The Underwriting Agreement will automatically terminate in the event of its assignment.

The following table sets forth the total compensation received by the Fund’s former distributor from the Fund during the fiscal year ended July 31, 2022:

<i>Fund</i>	<i>Net Underwriting Discounts and Commissions</i>	<i>Compensation on Redemptions and Repurchases</i>	<i>Brokerage Commissions</i>	<i>Other Compensation</i>
Tactical Dividend & Momentum Fund Class A	\$0	\$0	\$0	*
Tactical Dividend & Momentum Fund Class C	\$0	\$0	\$0	*
Tactical Dividend & Momentum Fund Class R	\$0	\$0	\$0	*

*The Fund’s former distributor received \$43,952 from the Adviser as compensation for its distribution services to the Fund.

The first paragraph of the “OTHER SERVICE PROVIDERS - Fund Administration, Fund Accounting and Transfer Agent Services” section on page 37 of the SAI is deleted in its entirety and replaced with the following:

Ultimus Fund Solutions, LLC (“UFS”), which has its principal office at 225 Pictoria Drive, Suite 450 Cincinnati, Ohio, 45246, serves as administrator, fund accountant and transfer agent for the Fund pursuant to the Fund Services Agreement (the “Agreement”) with the Fund and subject to the supervision of the Board. UFS is primarily in the business of providing administrative, fund accounting and transfer agent services to retail and institutional mutual funds. UFS may also provide persons to serve as officers of the Fund. Such officers may be directors, officers or employees of UFS or its affiliates.

The “OTHER SERVICE PROVIDERS - Chief Compliance Officer” section on page 39 of the SAI is deleted in its entirety and replaced with the following:

Chief Compliance Officer

Northern Lights Compliance Services, LLC (“NLCS”), an affiliate of UFS, provides a Chief Compliance Officer to the Trust as well as related compliance services pursuant to a consulting agreement between NLCS and the Trust. NLCS’s compliance services consist primarily of reviewing and assessing the policies and procedures of the Trust and its service providers pertaining to compliance with applicable federal securities laws, including Rule 38a-1 under the 1940 Act. For the compliance services rendered to the Fund, the Fund paid NLCS a one-time fee plus an annual asset based fee, which scales downward based on net assets. The Fund also pay NLCS for any out-of-pocket expenses.

You can obtain copies of the Fund’s Prospectus, SAI, and annual or semi-annual reports without charge by contacting the Fund’s Distributor, Foreside Financial Services, LLC, Three Canal Plaza, Suite 100, Portland, ME 04101 or by calling (866) 453-5199 or by visiting the Fund’s website at www.hanlonfunds.com.

This Supplement and the existing Prospectus and SAI provide relevant information for all shareholders and should be retained for future reference. The Fund’s Prospectus and SAI have each been filed with the Securities and Exchange Commission and are incorporated by reference. Copies of these documents may be obtained without charge by visiting www.hanlonfunds.com or by calling 1-844-828-3212.

FUND SUMMARY: TACTICAL DIVIDEND AND MOMENTUM FUND
(f/k/a Hanlon Tactical Dividend and Momentum Fund)

Investment Objective: The Tactical Dividend and Momentum Fund (the “Fund”) seeks to provide capital appreciation and current income.

Fees and Expenses of the Fund: This table describes the fees and expenses that you may pay if you buy, hold and sell shares of the Fund. You may pay other fees, such as brokerage commissions and other fees to financial intermediaries, which are not reflected in the table and Example below. You may qualify for sales charge discounts on purchases of Class A shares if you and your family invest, or agree to invest in the future, at least \$25,000 in the Fund. More information about these and other discounts is available from your financial intermediary and in the section entitled How to Purchase Shares on page 13 of this Fund’s Prospectus and in the Statement of Additional Information (“SAI”).

Shareholder Fees (fees paid directly from your investment)	Class A	Class C	Class I	Class R
Maximum Sales Charge (Load) Imposed on Purchases (as a % of offering price)	5.75%	None	None	None
Maximum Deferred Sales Charge (Load) for Shares Held Less Than One Year (as a % of original purchase price)	None ⁽¹⁾	1.00%	None	None
Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment)				
Management Fees	1.00%	1.00%	1.00%	1.00%
Distribution (12b-1) and Service Fees	0.25%	1.00%	None	0.40%
Other Expenses	0.31%	0.32%	0.40%	0.32%
Acquired Fund Fees and Expenses ⁽²⁾	<u>0.16%</u>	<u>0.16%</u>	<u>0.16%</u>	<u>0.16%</u>
Total Annual Fund Operating Expenses	1.72%	2.48%	1.56%	1.88%

- (1) There is a 1.00% contingent deferred sales charge (“CDSC”) for investments of \$1 million or more (see “How to Purchase Shares” below) on shares sold within 1-year of purchase, unless you are otherwise eligible to purchase Class A shares without an initial sales charge or are eligible for a waiver of the CDSC (see “Waiver of Contingent Deferred Sales Charges” below).
- (2) Acquired Fund Fees and Expenses are the indirect costs of investing in other investment companies. The operating expenses in this fee table will not correlate to the expense ratio in the Fund’s financial highlights because the financial statements include only the direct operating expenses incurred by the Fund.

Example: This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds.

The Example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that the Fund’s operating expenses remain the same. Although your actual costs may be higher or lower, based upon these assumptions your costs would be:

Class	1 Year	3 Years	5 Years	10 Years
A	\$740	\$1,086	\$1,455	\$2,488
C	\$251	\$773	\$1,321	\$2,816
I	\$159	\$493	\$850	\$1,856
R	\$191	\$591	\$1,016	\$2,201

Portfolio Turnover: The Fund pays transaction costs, such as commissions, when it buys and sells securities (or “turns over” its portfolio). A higher portfolio turnover may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the Example, affect the Fund’s performance. For the fiscal year ended July 31, 2022, the Fund’s portfolio turnover rate was 406% of the average value of its portfolio.

Principal Investment Strategies: The Fund follows, when appropriate, a rules-based investment strategy, that includes both a sector tactical overlay and ranking selection strategy among the eleven major economic sectors in the U.S. economy. The Adviser may also exercise its discretion in applying the rules-based investment strategy, when, in its opinion, a discretionary management approach would be more appropriate. These eleven sectors include: communications services; consumer discretionary; consumer staples; energy; financials; health care; industrials; information technology; materials; real estate and utilities.

When the tactical algorithms determine that a sector is on a “buy,” the Fund may invest in any number of the highest dividend yielding and highest momentum stocks from that particular sector. Dividend yield is determined as the total of all trailing 12-month regular dividends, divided by the current market price for each stock. A ranking by dividend yield of all stocks in the sector is made and the highest dividend stocks may be selected. Momentum is determined by a proprietary factor calculation of the rate of change for each stock over the prior 64-day and prior 18-day time periods. A ranking by momentum of all stocks in the sector is made and the top momentum-based stocks may be selected. The Adviser selects the stocks as of the date of the initial investment or tactical reinvestment in the sector. The Adviser may also elect to remove or replace any number of the stocks at any time. The Adviser may also choose to invest into the entire sector by buying an exchange-traded-fund (“ETF”) representing all constituent stocks of that sector that are in the S&P 500 Index or in one or more ETFs representing a portion of a sector. When a sector is on a buy, the Adviser may invest all or a portion of the allocation into that sector, up to its market cap weighting, into any combination and weighting of individual stocks or ETFs. When all eleven sectors are on a buy, the Fund may be fully invested in a combination of stocks and ETFs in each sector. Under these circumstances, the Fund will invest up to a market cap weighted amount of its assets in each of the eleven sectors. The market cap weight amount of each sector shall be determined by the percentage that the individual sector is represented in the S&P 500 Index as of the end of the previous calendar month. Under certain circumstances, the Fund may be over weighted in one or more sectors because of market appreciation or if the Adviser believes that different weightings are appropriate.

When the tactical algorithms and the Adviser, in its discretion, determines that a sector is not on a “buy,” the Fund will move to a defensive position with respect to that sector, and will hold cash and/or cash equivalents instead of investing in stocks or ETFs from the sector. When none of the sectors is on a buy, the Fund will be fully defensive, meaning that all of the Fund’s assets will be invested in cash and/or cash equivalents. Accordingly, the Fund may invest all or a substantial portion of its assets in cash and/or cash equivalents and may invest in a smaller number of holdings. The Fund may also seek to increase its income by lending portfolio securities to certain institutions.

Principal Investment Risks: As with all mutual funds, there is the risk that you could lose money through your investment in the Fund. An investment in the Fund is not guaranteed to achieve its investment objective; is not a deposit with a bank; is not insured, endorsed or guaranteed by the Federal Deposit Insurance Corporation or any other government agency; and is subject to investment risks. The value of your investment in the Fund, as well as the amount of return you receive on your investment, may fluctuate significantly. You may lose part or all of your investment in the Fund or your investment may not perform as well as other similar investments. The Fund is not intended to be a complete investment program but rather one component of a diversified investment portfolio. Many factors affect the Fund’s net asset value and performance. Each risk summarized below is a principal risk of investing in the Fund and different risks may be more significant at different times depending upon market conditions or other factors.

The following describes the risks that the Fund bears directly or indirectly through its investments in ETFs.

- *Market Risk.* Overall market risk may affect the value of individual instruments in which the Fund invests. The Fund is subject to the risk that the securities markets will move down, sometimes rapidly and unpredictably, based on overall economic conditions and other factors, which may negatively affect the Fund’s performance. Factors such as domestic and foreign economic growth and market conditions, real or perceived adverse economic or political conditions, inflation, changes in interest rate levels, lack of liquidity in the bond or other markets, volatility in the equities or other securities markets or adverse investor sentiment affect the securities markets and political events affect the securities markets. U.S. and foreign stock markets have experienced periods of substantial price volatility in the past and may do so again in the future. Securities markets also may experience long periods of decline in value. A change in financial condition or other event affecting a single issuer or market may adversely impact securities markets as a whole. Rates of inflation have recently risen. The value of assets or income from an investment may be worth less in the future as inflation decreases the value of money. As inflation increases, the real value of the Fund’s assets can decline as can the value of the Fund’s distributions. When the value of the Fund’s investments goes down, your investment in the Fund decreases in value and you could lose money.

Local, state, regional, national or global events such as war, acts of terrorism, the spread of infectious illness or other public health issues, recessions, or other events could have a significant impact on the Fund and its investments and could result in decreases to the Fund’s net asset value. Political, geopolitical, natural and other events, including war, terrorism, trade disputes, government shutdowns, market closures, natural and environmental disasters, epidemics, pandemics and other public health crises and related events and governments’ reactions to such events have led, and in the future may lead, to economic uncertainty, decreased economic activity, increased market volatility and other disruptive effects on U.S. and global economies and markets. Such events may have significant adverse direct or indirect effects on the Fund and its investments. For example, a widespread health crisis such as a global pandemic could cause substantial market volatility, exchange trading suspensions and closures, impact the ability to complete redemptions, and affect Fund performance. A health crisis may exacerbate other pre-existing political, social and economic risks. In addition, the increasing interconnectedness of markets around the world may result in many markets being affected by events or conditions in a single country or region or events affecting a single or small number of issuers.

- *Management Risk.* The Fund’s investment strategies may not result in an increase in the value of your investment in the Fund or in overall performance equal to other similar investment vehicles having investment strategies that are similar to those of the Fund. The Adviser determines the intrinsic value of the securities the Fund holds and its assessment may be incorrect, which may result in a decline in the value of Fund shares and failure to achieve its investment objective. The Fund’s portfolio managers use qualitative analyses and/or models. Any imperfections or limitations in such analyses or models could affect the ability of the portfolio managers to implement strategies. In addition, the Fund’s tactical asset allocation strategy may be unsuccessful and may cause the Fund to miss attractive investment opportunities while in a defensive position.
- *Rules-Based Strategy Risk.* A rules-based investment strategy may not be successful on an ongoing basis or could contain unknown errors. In addition, the data used may be inaccurate. or the computer programming used to create a rules-based investment strategy might contain one or more errors. Moreover, during periods of increased volatility or changing market conditions the commonality of portfolio holdings and similarities between strategies of rules-based managers may amplify losses.
- *Sector Risk.* The risk that if the Fund invests a significant portion of its total assets in certain issuers within the same economic sector, an adverse economic, business or political development or natural or other event, including war, terrorism, natural and environmental disasters, epidemics, pandemics and other public health crises, affecting that sector may affect the value of the Fund’s investments more than if the Fund’s investments were not so concentrated.
- *Cash Positions Risk.* The Fund may hold a significant position in cash and/or cash equivalent securities. When the Fund’s investment in cash or cash equivalent securities increases, the Fund may not participate in market advances or declines to the same extent that it would if the Fund were more fully invested.
- *Cybersecurity Risk.* There is risk to the Fund of an unauthorized breach and access to fund assets, customer data (including private shareholder information), or proprietary information, or the risk of an incident occurring that causes the Fund, the Fund’s investment adviser, custodian, transfer agent, distributor and other service providers and financial intermediaries (the “Service Providers”) to suffer data breaches, data corruption or lose operational functionality. Successful cyber-attacks or other cyber-failures or events affecting the Fund, or its Service Providers may adversely impact the Fund or its shareholders.
- *Equity Risk.* Equity securities are susceptible to general market fluctuations and volatile increases and decreases in value as market confidence in and perceptions of their issuers change. Factors that may influence the price of equity securities include developments affecting a specific company or industry, or the changing economic, political or market conditions.
 - *Dividend-Yielding Companies Risk.* A company that has historically paid regular dividends to shareholders may decrease or eliminate dividend payments in the future, which could result in a decrease in the value of the company’s stock and lower performance of the Fund.
 - *Momentum Investing Risk.* An investment in securities with positive momentum entails investing in securities that have had above-average recent returns. These securities may experience greater price volatility than other equity securities, which may negatively impact the investment performance of the Fund.
- *Focus Risk.* To the extent the Fund invests a greater proportion of its assets in the securities of a smaller number of issuers, the Fund may be subject to greater volatility with respect to its investments than a fund that invests in a larger number of securities.
- *Healthcare Sector Risk.* The Fund may invest a substantial portion of its assets directly or indirectly in securities issued by healthcare companies and, as a result, the performance of the Fund will be impacted by economic, political and regulatory risks or other occurrences associated with the healthcare industry. Healthcare companies may be significantly affected by product obsolescence, thin capitalization, limited product lines and markets, civil liability claims and legislative or regulatory activities, among other factors.
- *Investment Companies and ETFs Risk.* When the Fund invests in other investment companies, including ETFs, it will bear additional expenses based on its pro rata share of the other investment company’s or ETF’s operating expenses, including the management fees of the investment company or ETF in addition to those paid by the Fund. The risk of owning an investment company or ETF generally reflects the risks of owning the underlying investments held by the investment company or ETF. The Fund also will incur brokerage costs when it purchases and sells closed end funds and ETFs. During periods of market volatility, inverse ETFs may not perform as expected.
- *Issuer-Specific Risk.* The value of a specific security can be more volatile than the market as a whole and may perform worse than the market as a whole.
- *Large Capitalization Risk.* The risk that large cap companies may be unable to respond as quickly as smaller companies to new competitive challenges, such as changes in technology and consumer tastes, and also may not be able to attain the high growth rate of successful smaller companies, especially during extended periods of economic expansion.
- *Liquidity Risk.* Liquidity risk exists when particular investments of the Fund would be difficult to purchase or sell, possibly preventing the Fund from selling such illiquid securities at an advantageous time or price, or possibly requiring the Fund to dispose of other investments at unfavorable times or prices in order to satisfy its obligations. In the past, in stressed markets, certain types of securities suffered periods of illiquidity if disfavored by the market. All of these risks may increase during periods of market turmoil, such as that experienced in 2020 with COVID-19 and could have a negative effect on the Fund’s performance.

- *Market Events Risk.* There has been increased volatility, depressed valuations, decreased liquidity and heightened uncertainty in the financial markets during the past several years, including what was experienced in 2020. These conditions may continue, recur, worsen or spread. The U.S. government and the Federal Reserve, as well as certain foreign governments and central banks, have taken steps to support financial markets, including by lowering interest rates to historically low levels. This and other government intervention may not work as intended, particularly if the efforts are perceived by investors as being unlikely to achieve the desired results. The U.S. government and the Federal Reserve have recently reduced market support activities, including by beginning to increase interest rates. Such reduction, including interest rate increases, could negatively affect financial markets generally, increase market volatility and reduce the value and liquidity of securities in which the Fund invests. Policy and legislative changes in the United States and in other countries may also continue to contribute to decreased liquidity and increased volatility in the financial markets. The impact of these changes on the markets, and the practical implications for market participants, may not be fully known for some time.
- *Portfolio Turnover Risk.* The Fund may experience high portfolio turnover, including investments made on a shorter-term basis, which may lead to increased Fund expenses that may result in lower investment returns. A higher portfolio turnover may result in higher transactional and brokerage costs. High portfolio turnover may also result in higher short-term capital gains taxable to shareholders.
- *Real Estate Securities Risk.* Investments in securities of real estate companies will make the Fund more susceptible to risks associated with the ownership of real estate and with the real estate industry in general. Real estate companies may have lower trading volumes and may be subject to more abrupt or erratic price movements than the overall securities markets. The value of real estate securities may underperform other sectors of the economy or broader equity markets. Certain investments in real estate-related investments were negatively affected by the COVID-19 pandemic.
- *Securities Lending Risk.* The Fund may lend portfolio securities to institutions, such as banks and certain broker-dealers. The risks associated with lending portfolio securities, as with other extensions of secured credit, include, but are not limited to, possible delays in receiving additional collateral or in the recovery of the securities loaned, possible loss of rights in the collateral should the borrower fail financially, as well as risk of loss in the value of the collateral or the value of the investments made with the collateral. In certain market conditions, the portfolio of the Fund's securities on loan may be significant and may magnify the risk of such a loss or delay.
- *Technology Securities Risk.* The Fund may invest a substantial portion of its assets directly or indirectly in securities issued by technology companies. Securities of technology companies may be subject to greater price volatility than securities of companies in other sectors. These securities may fall in and out of favor with investors rapidly, which may cause sudden selling and dramatically lower market prices. Technology securities also may be affected adversely by changes in technology, consumer and business purchasing patterns, government regulation and/or obsolete products or services. In addition, a rising interest rate environment tends to negatively affect technology companies.
- *Volatility Risk.* The Fund's investments may appreciate or decrease significantly in value over short periods of time. The value of an investment in the Fund's portfolio may fluctuate due to events or factors that affect markets generally or that affect a particular investment, industry or sector. The value of an investment in the Fund's portfolio may also be more volatile than the market as a whole. This volatility may affect the Fund's net asset value per share, including by causing it to experience significant increases or declines in value over short periods of time. Events or financial circumstances affecting individual investments, industries or sectors may increase the volatility of the Fund.

Performance: The bar chart and performance table below show the variability of the Fund's returns, which is some indication of the risks of investing in the Fund. The bar chart shows performance of the Fund's Class I shares for each calendar year since the Fund's inception. Class A, Class C, and Class R shares, which are not presented in the bar chart, would have similar returns to Class I shares because the classes are invested in the same portfolio of securities and would differ only to the extent that Class A, Class C, and Class R shares have different expenses than Class I shares. Sales loads or account fees are not reflected in the bar chart. If these amounts were reflected, returns would be less than those shown. The performance table compares the performance of the Fund over time to the performance of a broad-based market index. You should be aware that the Fund's past performance (before and after taxes) may not be an indication of how the Fund will perform in the future. Updated performance information will be available at no cost by visiting www.HanlonFunds.com or by calling 1-844-828-3212.

Performance Bar Chart for the Calendar Year Ended December 31st

Highest Quarter:	12/31/2020	10.06%
Lowest Quarter:	12/31/2018	-12.75%

The Fund's year to date return for the period ended September 30, 2022 was: -13.29%

Performance Table
Average Annual Total Returns
(For the year ended December 31, 2021)

	One Year	Five Years	Since Inception⁽¹⁾
Class I Shares			
Return before taxes	17.49%	8.66%	5.74%
Return after taxes on Distributions	14.00%	7.89%	5.08%
Return after taxes on Distributions and Sale of Fund Shares	12.79%	6.78%	4.46%
Class A Shares			
Return before taxes	10.48%	7.10%	4.52%
Class C Shares			
Return before taxes	16.31%	7.57%	4.73%
Class R Shares			
Return before taxes	16.97%	8.22%	5.28%
S&P 500 Total Return Index⁽²⁾ (reflects no deduction for fees, expenses or taxes)	28.71%	18.47%	17.52%

(1) The inception date of the Fund is September 9, 2015.

(2) The S&P 500 Total Return Index is an unmanaged free-float capitalization-weighted index which measures the performance of 500 large-cap common stocks actively traded in the United States. Unlike a mutual fund, an index does not reflect any trading costs or management fees. Investors cannot directly invest in an index.

Investment Adviser: Hanlon Investment Management, Inc. (the “Adviser”) serves as investment adviser to the Fund.

Portfolio Managers: The Fund is managed by John J. (“Sean”) Hanlon, IV, CFP®, the Founder, Chief Executive Officer and Co-Chief Investment Officer of the Adviser and George Peller, the Co-Chief Investment Officer. Mr. Hanlon has managed the Fund since its inception in September 2015 and Mr. Peller has managed the Fund since November 2018.

Purchase and Sale of Fund Shares: You may purchase and redeem shares of the Fund on any day that the New York Stock Exchange is open for trading by written request, by telephone at 1-844-828-3212, or through your broker. Redemptions will be paid by automated clearing house funds (“ACH”), check or wire transfer. The Fund or its Adviser may waive any of the minimum initial and subsequent investment amounts.

Class	Minimum Investment	
	Initial	Subsequent
A	\$2,500	\$500
C	\$2,500	\$500
I	\$100,000	\$500
R	\$2,500	\$500

Tax Information: Dividends and capital gain distributions you receive from the Fund, whether you reinvest your distributions in additional Fund shares or receive them in cash, are generally taxable to you at either ordinary income or capital gains tax rates unless you are investing through a tax-deferred plan such as an IRA or 401(k) plan.

Payments to Broker-Dealers and Other Financial Intermediaries: If you purchase shares of the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies, including the Adviser, may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary’s website for more information.

ADDITIONAL INFORMATION ABOUT PRINCIPAL INVESTMENT STRATEGIES AND RELATED RISKS

This section provides more detailed information about the investment objectives, principal investment strategies and certain risks of investing in the Tactical Dividend and Momentum Fund (the “Fund”) This section also provides information regarding the Fund’s disclosure of portfolio holdings.

Investment Objective: The Fund seeks to provide capital appreciation and current income. The Fund’s investment objective may be changed by the Fund’s Board of Trustees upon 60 days’ prior written notice to shareholders.

Principal Investment Strategies: The Fund follows, when appropriate, a rules-based investment strategy, that includes both a sector tactical overlay and ranking selection strategy among the ten major economic sectors in the U.S. economy. The Adviser may also exercise its discretion in applying the rules-based investment strategy, when, in its opinion, a discretionary management approach would be more appropriate. These eleven sectors include: communications services; consumer discretionary; consumer staples; energy; financials; health care; industrials; information technology; materials; real estate and utilities.

When the tactical algorithms determine that a sector is on a “buy,” the Fund may invest in any number of the highest dividend yielding and highest momentum stocks from that particular sector. Dividend yield is determined as the total of all trailing 12-month regular dividends, divided by the current market price for each stock. A ranking by dividend yield of all stocks in the sector is made and the highest dividend stocks may be selected. Momentum is determined by a proprietary factor calculation of the rate of change for each stock over the prior 64-day and prior 18-day time periods. A ranking by momentum of all stocks in the sector is made and the top momentum-based stocks may be selected. The Adviser selects the stocks as of the date of the initial investment or tactical reinvestment in the sector. The Adviser may also elect to remove or replace any number of the stocks at any time. When a sector is on a buy, the Adviser may invest all or a portion of the allocation into that sector, up to its market cap weighting, into any combination and weighting of individual stocks or Exchange Traded Funds (“ETFs”). When all eleven sectors are on a buy, the Fund may be fully invested in a combination of stocks and ETFs in each sector. Under these circumstances, the Fund will invest up to a market cap weighted amount of its assets in each of the eleven sectors. The market cap weight amount of each sector shall be determined by the percentage that the individual sector is represented in the S&P 500 Index as of the end of the previous calendar month. Under certain circumstances, the Fund may be over weighted in one or more sectors because of market appreciation or if the Adviser believes that different weightings are appropriate. The Adviser may also choose to invest into the entire sector by buying an ETF representing all constituent stocks of that sector that are in the S&P 500 Index or in one or more ETFs representing a portion of a sector.

When the tactical algorithms and the Adviser, in its discretion, determines that a sector is not on a “buy,” the Fund will move to a defensive position with respect to that sector, and will hold cash and/or cash equivalents instead of investing in stocks or ETFs from the sector. When none of the sectors is on a buy, the Fund will be fully defensive, meaning that all of the Fund’s assets will be invested in cash and/or cash equivalents. Accordingly, the Fund may invest all or a substantial portion of its assets in cash and/or cash equivalents and may invest in a smaller number of holdings. The Fund may also seek to increase its income by lending portfolio securities to certain institutions.

Principal and Other Risk Factors

As with all funds, there is the risk that you could lose money through your investment in the Fund. An investment in the Fund is not guaranteed to achieve its investment objective; is not a deposit with a bank; is not insured, endorsed or guaranteed by the Federal Deposit Insurance Corporation or any other government agency; and is subject to investment risks. The Adviser cannot guarantee that the Fund will achieve its objectives. The value of your investment in the Fund, as well as the amount of return you receive on your investment, may fluctuate significantly. You may lose part or all of your investment in the Fund or your investment may not perform as well as other similar investments. The Fund is not intended to be a complete investment program but rather one component of a diversified investment portfolio. Many factors affect the Fund’s net asset value and performance. It is important that investors closely review and understand these risks before making an investment in the Fund. Additional information regarding the principal and certain other risks of investing in the Fund is provided below. The Fund’s Statement of Additional Information (“SAI”), which is incorporated by reference into this Prospectus, includes more information about the Fund and its investments and risks. The risks described in this Prospectus (and in the SAI) are not intended to include every potential risk of investing in the Fund. The Fund could be subject to additional risks because the types of investments it makes may change over time.

The following section provides additional information regarding certain of the principal risks identified under “Principal Risk Factors” in the Fund’s summary along with additional risk information. The Fund may be subject to the risks described below through its own direct investments and indirectly through investments in ETFs.

Cash Positions Risk

The Fund may hold a significant position in cash, cash equivalent securities and U.S. Treasury investments. When the Fund’s investment in cash, cash equivalent securities or U.S. Treasury investment increases, the Fund may not participate in market advances or declines to the same extent that it would if the Fund were more fully invested.

Cybersecurity Risk

There is risk to the Fund of an unauthorized breach and access to fund assets, customer data (including private shareholder information), or proprietary information, or the risk of an incident occurring that causes the Fund or its Service Providers to suffer data breaches, data corruption or lose operational functionality. Successful cyber-attacks or other cyber-failures or events affecting the Fund, or its Service Providers may adversely impact the Fund or its shareholders. Because information technology (“IT”) systems and digital data underlie most of the Fund’s operations, the Fund and its Service Providers are exposed to the risk that their operations and data may be compromised as a result of internal and external cyber-failures, breaches or attacks (“Cyber Risk”). This could occur as a result of malicious or criminal cyber-attacks. Cyber-attacks include actions taken to: (i) steal or corrupt data maintained online or digitally, (ii) gain unauthorized access to or release confidential information, (iii) shut down the Fund or Service Provider website through denial-of-service attacks, or (iv) otherwise disrupt normal business operations. Events arising from human error, faulty or inadequately implemented policies and procedures or other systems failures unrelated to any external cyber-threat may have effects similar to those caused by deliberate cyber-attacks. See “Cybersecurity” below for additional risks related to potential cybersecurity breaches.

Equity Risk

Equity securities are susceptible to general market fluctuations and volatile increases and decreases in value as market confidence in and perceptions of their issuers change. Factors that may influence the price of equity securities include developments affecting a specific company or industry, or the changing economic, political or market conditions.

- *Dividend-Yielding Companies Risk.* A company that has historically paid regular dividends to shareholders may decrease or eliminate dividend payments in the future, which could result in a decrease in the value of the company’s stock and lower performance of the Fund.
- *Momentum Investing Risk.* An investment in securities with positive momentum entails investing in securities that have had above-average recent returns. These securities may experience greater price volatility than other equity securities, which may negatively impact the investment performance of the Fund.

Focus Risk

To the extent the Fund invests a greater proportion of its assets in the securities of a smaller number of issuers, the Fund may be subject to greater volatility with respect to its investments than a fund that invests in a larger number of securities.

Healthcare Sector Risk

The Fund may invest a substantial portion of its assets directly or indirectly in securities issued by healthcare companies and, as a result, the performance of the Fund will be impacted by economic, political and regulatory risks or other occurrences associated with the healthcare industry. Healthcare companies may be significantly affected by product obsolescence, thin capitalization, limited product lines and markets, civil liability claims and legislative or regulatory activities, among other factors.

Investment Companies and Exchange-Traded Funds (“ETFs”) Risk

When the Fund invest in other investment companies, including ETFs, they will bear additional expenses based on the Fund’s pro rata share of the other investment company’s or ETF’s operating expenses, including the management fees of the investment company or ETF in addition to those paid by the Fund. In addition, the risk of owning shares of another investment company or an ETF generally reflects the risks of owning the underlying investments such investment company or ETF holds. The Fund also will incur brokerage costs when it purchases and sells closed-end funds and ETFs. In addition, the market value of shares of ETFs or closed end funds may differ from their net asset value. Accordingly, there may be times when closed-end fund or ETF shares trade at a premium or discount to net asset value. For ETFs, this difference in price may be due to the fact that the supply and demand in the market for fund shares at any point in time is not always identical to the supply and demand in the market for the underlying basket of securities. Accordingly, there may be times when ETF shares trade at a premium or discount to net asset value.

Issuer-Specific Risk

The value of a specific security can be more volatile than the market as a whole and may perform worse than the market as a whole. The value of large cap securities, as represented by the S&P 500 Index, can be more volatile than smaller cap securities due to differing market reactions to adverse issuer, political, regulatory, market, or economic developments.

Large Capitalization Risk

Large capitalization companies may be unable to respond as quickly as smaller companies to new competitive challenges, such as changes in technology and consumer tastes, and also may not be able to attain the high growth rate of successful smaller companies, especially during extended periods of economic expansion.

Liquidity Risk

There is risk that the Fund may not be able to pay redemption proceeds within the time periods described in this Prospectus because of unusual market conditions, an unusually high volume of redemption requests, legal restrictions impairing its ability to sell particular securities at an advantageous market price or other reasons. Certain portfolio securities may be less liquid than others, which may make them difficult or impossible to sell at the time and the price that the Fund would like or difficult to value. The Fund may have to lower the price, sell other securities instead or forgo an investment opportunity. In addition, less liquid securities may be more difficult to value and markets may become less liquid when there are fewer interested buyers or sellers or when dealers are unwilling or unable to make a market for certain securities. Recently, dealers have generally been less willing to make markets for fixed income securities. Any of these events could have a negative effect on fund management or performance. Funds with principal investment strategies that involve investments in securities of companies with smaller market capitalizations, foreign securities, Rule 144A securities, derivatives or securities with substantial market and/or credit risk tend to have the greatest exposure to liquidity risk. All of these risks may increase during periods of market turmoil, such as that experienced in 2020 with COVID-19, and could have a negative effect on the Fund's performance.

Management Risk

The Fund's investment strategies may not result in an increase in the value of your investment in the Fund or in overall performance equal to other similar investment vehicles having similar investment strategies to those of the Fund. The net asset value of the Fund changes daily based on the performance of the securities in which it invests. The Adviser's judgments about the attractiveness, value and potential appreciation of particular securities in which the Fund invests may prove to be incorrect and may not produce the desired results. The Fund's portfolio managers use qualitative analyses and/or models. Any imperfections or limitations in such analyses or models could affect the ability of the portfolio managers to implement strategies. In addition, the Fund's tactical asset allocation strategy may be unsuccessful and may cause the Fund to miss attractive investment opportunities while in a defensive position. Additionally, the Adviser may have conflicts of interest that could interfere with its management of the Fund's portfolio. For example, the Adviser or its affiliates may manage other investment funds or have other clients that may be similar to, or overlap with, the investment objective and strategy of the Fund, creating potential conflicts of interest when making decisions regarding which investments may be appropriate for the Fund and other clients. Further information regarding conflicts of interest is available in the SAI.

Market Events Risk

There has been increased volatility, depressed valuations, decreased liquidity and heightened uncertainty in the financial markets during the past several years, including what was experienced in 2020. These conditions may continue, recur, worsen or spread. The U.S. government and the Federal Reserve, as well as certain foreign governments and central banks, have taken steps to support financial markets, including by lowering interest rates to historically low levels. This and other government intervention may not work as intended, particularly if the efforts are perceived by investors as being unlikely to achieve the desired results. The U.S. government and the Federal Reserve have recently reduced market support activities, including by beginning to increase interest rates. Such reduction, including interest rate increases, could negatively affect financial markets generally, increase market volatility and reduce the value and liquidity of securities in which the Fund invests. Policy and legislative changes in the United States and in other countries may also continue to contribute to decreased liquidity and increased volatility in the financial markets. The impact of these changes on the markets, and the practical implications for market participants, may not be fully known for some time. COVID-19 has resulted in travel restrictions, closed international borders, enhanced health screenings at ports of entry and elsewhere, disruption of and delays in healthcare service preparation and delivery, prolonged quarantines, cancellations, business and school closings, supply chain disruptions, and lower consumer demand, as well as general concern and uncertainty. The impact of COVID-19, and other infectious illness outbreaks that may arise in the future, could adversely affect the economies of many nations or the entire global economy, individual issuers and capital markets in ways that cannot necessarily be foreseen. In addition, the impact of infectious illnesses in emerging market countries may be greater due to generally less established healthcare systems.

Market Risk

Overall market risk may affect the value of individual instruments in which the Fund invests. The Fund is subject to the risk that the securities markets will move down, sometimes rapidly and unpredictably, based on overall economic conditions and other factors, which may negatively affect the Fund's performance. Factors such as domestic and foreign (non-U.S.) economic growth and market conditions, real or perceived adverse economic or political conditions, inflation, changes in interest rate levels, lack of liquidity in the bond and other markets, volatility in the securities markets, adverse investor sentiment affect the securities markets and political events affect the securities markets. U.S. and foreign stock markets have experienced periods of substantial price volatility in the past and may do so again in the future. A change in financial condition or other event affecting a single issuer or market may adversely impact securities markets as a whole. Rates of inflation have recently risen. The value of assets or income from an investment may be worth less in the future as inflation decreases the value of money. As inflation increases, the real value of the Fund's assets can decline as can the value of the Fund's distributions. Securities markets also may experience long periods of decline in value. When the value of the Fund's investments goes down, your investment in the Fund decreases in value and you could lose money.

Equity securities generally have greater price volatility than fixed income securities, although under certain market conditions fixed income securities may have comparable or greater price volatility. During a general downturn in the securities markets, multiple asset classes may decline in value simultaneously. Adverse market conditions may be prolonged and may not have the same impact on all types of securities. Different sectors of the market and different security types may react differently to such developments. Changes in value may be temporary or may last for extended periods. The Fund may experience a substantial or complete loss on any individual security. Even when securities markets perform well, there is no assurance that the investments held by the Fund will increase in value along with the broader market. Market factors, such as the demand for particular portfolio securities, may cause the price of certain portfolio securities to fall while the prices of other securities rise or remain unchanged.

Local, state, regional, national or global events such as war, acts of terrorism, the spread of infectious illness or other public health issues, recessions, or other events could have a significant impact on the Fund and its investments and could result in decreases to the Fund's net asset value. Political, geopolitical, natural and other events, including war, terrorism, trade disputes, government shutdowns, market closures, natural and environmental disasters, epidemics, pandemics and other public health crises and related events and governments' reactions to such events have led, and in the future may lead, to economic uncertainty, decreased economic activity, increased market volatility and other disruptive effects on U.S. and global economies and markets. Such events may have significant adverse direct or indirect effects on the Fund and its investments. For example, a widespread health crisis such as a global pandemic could cause substantial market volatility, exchange trading suspensions and closures, impact the ability to complete redemptions, and affect Fund performance. A health crisis may exacerbate other pre-existing political, social and economic risks. In addition, the increasing interconnectedness of markets around the world may result in many markets being affected by events or conditions in a single country or region or events affecting a single or small number of issuers.

Portfolio Turnover Risk

The Fund may experience high portfolio turnover, including investments made on a shorter-term basis, which may lead to increased Fund expenses, such as higher transactional and brokerage costs, that may result in lower investment returns. A higher portfolio turnover may result in higher transactional and brokerage costs. High portfolio turnover may also result in higher short-term capital gains taxable to shareholders.

Real Estate Securities Risk

Investments in securities of real estate companies will make the Fund more susceptible to risks associated with the ownership of real estate and with the real estate industry in general. Real estate companies may have lower trading volumes and may be subject to more abrupt or erratic price movements than the overall securities markets. The value of real estate securities may underperform other sectors of the economy or broader equity markets. Certain investments in real estate-related investments were negatively affected by the COVID-19 pandemic.

Rules-Based Strategy Risk

A "rules-based" strategy is a methodology based on a systematic approach. Its investment performance may differ significantly from the performance of any index against which its performance may be compared. Further, the data used to implement a rules-based strategy may be inaccurate and/or it may not include the most recent information about a company or a security. In addition, computer programming used to create a rules-based investment strategy, or the data on which such strategies operate, might contain one or more errors. Such errors might never be detected or might be detected only after the Fund has sustained a loss (or reduced performance) related to such errors. Moreover, an increasing number of market participants may rely on rules-based investment strategies that are similar to those used by the Adviser, which may result in a substantial number of market participants taking the same action with respect to an investment. Should one or more of these other market participants begin to divest themselves of one or more portfolio holdings, the Fund could suffer significant losses. In addition, changes in underlying market conditions can adversely affect the performance of a rules-based investment strategy.

Sector Risk

The risk that if the Fund invests a significant portion of its total assets in certain issuers within the same economic sector, an adverse economic, business or political development or natural or other event, including war, terrorism, natural and environmental disasters, epidemics, pandemics and other public health crises, affecting that sector may affect the value of the Fund's investments more than if the Fund's investments were not so concentrated. Securities within the same group of industries may decline in price due to sector-specific market or economic developments.

Securities Lending Risk

The Fund may seek to increase its income by lending portfolio securities to institutions, such as banks and certain broker-dealers. Portfolio security loans are secured continuously by collateral maintained on a current basis at an amount equal to at least 102% of the current market value of the loaned domestic securities (105% of loaned foreign securities) by marking to market daily. The value of the securities loaned by the Fund will not exceed 33¹/₃% of the value of the Fund's total assets. The collateral the Fund receives will generally take the form of cash, U.S. Government securities, letters of credit, or other collateral as deemed appropriate by the Adviser. The Fund may use any cash collateral it receives to invest in short-term investments, including money market funds. It is the Trust's policy to obtain additional collateral from or return excess collateral to the borrower by the end of the next business day. Therefore, from time to time the value of the collateral received by the Fund may be less than the value of the securities on loan. The Fund will receive income earned on the securities loaned during the lending period and a portion of the interest or rebate earned on the collateral received. The risks associated with lending portfolio securities, as with other extensions of secured credit, include, but are not limited to, possible delays in receiving additional collateral or in the recovery of the securities loaned, possible loss of rights in the collateral should the borrower fail financially, as well as risk of loss in the value of the collateral or the value of the investments made with the collateral. In certain market conditions, the portfolio of the Fund's securities on loan may be significant and may magnify the risk of such a loss or delay. Any gain or loss in the market price of the securities loaned that might occur during the term of the loan would be for the account of the Fund.

Technology Securities Risk

The Fund may invest a substantial portion of its assets directly or indirectly in securities issued by technology companies. Securities of technology companies may be subject to greater price volatility than securities of companies in other sectors. These securities may fall in and out of favor with investors rapidly, which may cause sudden selling and dramatically lower market prices. Technology securities also may be affected adversely by changes in technology, consumer and business purchasing patterns, government regulation and/or obsolete products or services. In addition, a rising interest rate environment tends to negatively affect technology companies.

Volatility Risk

The Fund's investments may appreciate or decrease significantly in value over short periods of time. The value of an investment in the Fund's portfolio may fluctuate due to events or factors that affect markets generally or that affect a particular investment, industry or sector. The value of an investment in the Fund's portfolio may also be more volatile than the market as a whole. This volatility may affect the Fund's net asset value per share, including by causing it to experience significant increases or declines in value over short periods of time. Events or financial circumstances affecting individual investments, industries or sectors may increase the volatility of the Fund.

PORTFOLIO HOLDINGS DISCLOSURE

A description of the Fund's policies regarding the release of portfolio holdings information is available in the Fund's Statement of Additional Information ("SAI"). Shareholders may request portfolio holdings schedules at no charge by calling 1-844-828-3212.

CYBERSECURITY

The computer systems, networks and devices used by the Fund and its Service Providers to carry out routine business operations employ a variety of protections designed to prevent damage or interruption from computer viruses, network failures, computer and telecommunication failures, infiltration by unauthorized persons and security breaches. Despite the various protections utilized by the Fund and its Service Providers, systems, networks, or devices potentially can be breached. The Fund and its shareholders could be negatively impacted as a result of a cybersecurity breach. The Fund and the Adviser have limited ability to prevent or mitigate cybersecurity incidents affecting its Service Providers.

Cybersecurity breaches can include unauthorized access to systems, networks, or devices; infection from computer viruses or other malicious software code; and attacks that shut down, disable, slow, or otherwise disrupt operations, business processes, or website access or functionality. Cybersecurity breaches may cause disruptions and impact the Fund's business operations, potentially resulting in financial losses; interference with the Fund's ability to calculate its net asset value; impediments to trading; the inability of the Fund and its Service Providers to transact business; prevention of Fund investors from purchasing, redeeming or exchanging shares or receiving distributions; violations of applicable privacy and other laws; regulatory fines, penalties, reputational damage, reimbursement or other compensation costs, or additional compliance costs; as well as the inadvertent release of confidential information.

Similar adverse consequences could result from cybersecurity breaches affecting issuers of securities in which the Fund invests; counterparties with which the Fund engage in transactions; governmental and other regulatory authorities; exchange and other financial market operators, banks, brokers, dealers, insurance companies, and other financial institutions (including financial intermediaries and service providers for the Fund's shareholders); and other parties. In addition, substantial costs may be incurred by these entities in order to prevent any cybersecurity breaches in the future.

MANAGEMENT

Investment Adviser

Hanlon Investment Management, Inc. serves as the investment adviser to the Fund. Its principal offices are located at 3393 Bargaintown Road, Egg Harbor Township, NJ 08234. The Adviser is an SEC-registered independent investment management firm founded in 1999 and has approximately \$603 million in assets under management as of July 31, 2022. Subject to the supervision of the Fund's Board of Trustees, the Adviser is responsible for managing the Fund's investments, executing transactions and providing related administrative services and facilities under an Investment Advisory Agreement between the Fund and the Adviser.

The Adviser has entered into an advisory agreement with the Fund, whereby the Adviser is entitled to receive an annual fee equal to 1.00% of the Fund's average daily net assets. For the fiscal year ended July 31, 2022, the aggregate fees paid to the Adviser were 1.00% of the Fund's average daily net assets. In addition to investment advisory fees, the Fund pays other expenses including costs incurred in connection with the maintenance of its securities law registration, printing and mailing prospectuses and Statements of Additional Information to shareholders, certain financial accounting services, taxes or governmental fees, custodial, transfer and shareholder servicing agent costs, expenses of outside counsel and independent accountants, preparation of shareholder reports and expenses of trustee and shareholders meetings.

The Adviser has contractually agreed to reduce the Fund's fees and/or absorb expenses of the Fund until at least November 28, 2023 to ensure that total annual Fund operating expenses (exclusive of (i) any front-end or contingent deferred loads; (ii) brokerage fees and commissions, (iii) acquired fund fees and expenses; (iv) borrowing costs (such as interest and dividend expense on securities sold short); (v) taxes; and (vi) extraordinary expenses, such as litigation expenses) do not exceed 1.70%, 2.45%, 1.45%, and 1.85% of average daily net assets attributable to Class A, Class C, Class I, and Class R shares, respectively. This agreement may be terminated with respect to the Fund by the Board of Trustees on 60 days' written notice to the Adviser. These fee waivers and expense reimbursements are subject to possible recoupment from the Fund in future years on a rolling three-year basis (within the three years of when the amount has been waived or reimbursed) if such recoupment can be achieved within the foregoing expense limits as well as any expense limitation that was in effect at the time the waiver or reimbursement was made.

A discussion regarding the basis for the Board of Trustees' approval of the Investment Advisory Agreement is available in the Fund's annual shareholder report dated July 31, 2022.

Portfolio Managers

John J. ("Sean") Hanlon, IV, CFP®

Sean Hanlon, CFP®, founded Hanlon Investment Management, Inc. in 1999 and currently serves as Chairman, Co-Chief Executive Officer and Chief Investment Officer. He serves on the Board of Trustees of the Stevens Institute of Technology, where he is Chairman of the Investment Committee and a member of the Finance Committee. He is also Chairman of the Advisory Board for the Stevens Financial Systems Center. Mr. Hanlon earned a Bachelor's degree in mechanical engineering from the Stevens Institute of Technology in 1980.

George Peller

George Peller joined the Adviser in 2013 as a Research Associate. Along with his current role as Co-Chief Investment Officer, he also oversees the daily operations of the Hanlon Research Team. He has over 15 years of investment experience, including six and a half years at BlackRock as a member of the Alternative Investments team and two years at Wells Fargo. George graduated with honors, Cum Laude, from La Salle University in 2003 with a major in Finance and a minor in Risk Management and Insurance.

The SAI provides additional information about each Portfolio Manager's compensation, other accounts managed by each Portfolio Manager and each Portfolio Manager's ownership of securities in the Fund.

HOW SHARES ARE PRICED

The net asset value (“NAV”) and offering price (NAV plus any applicable sales charges) of each class of shares is determined at 4:00 p.m. (Eastern Time) on each day the New York Stock Exchange (“NYSE”) is open for business. NAV is computed by determining, on a per class basis, the aggregate market value of all assets of the Fund, less its liabilities, divided by the total number of shares outstanding ((assets - liabilities)/number of shares = NAV). The NYSE is closed on weekends and New Year’s Day, Martin Luther King, Jr. Day, Presidents’ Day, Good Friday, Memorial Day, Juneteenth National Independence Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day. The NAV takes into account, on a per class basis, the expenses and fees of the Fund, including management, administration, and distribution fees, which are accrued daily. The determination of NAV for a share class for a particular day is applicable to all applications for the purchase of shares, as well as all requests for the redemption of shares, received by the Fund (or an authorized broker or agent, or its authorized designee) before the close of trading on the NYSE on that day.

Generally, the Fund’s securities are valued each day at the last quoted sales price on each security’s primary exchange. Securities traded or dealt in upon one or more securities exchanges (whether domestic or foreign) for which market quotations are readily available and not subject to restrictions against resale shall be valued at the last quoted sales price on the primary exchange or, in the absence of a sale on the primary exchange, at the mean of the last bid and ask price on the primary exchange. Securities primarily traded in the National Association of Securities Dealers’ Automated Quotation System (“NASDAQ”) National Market System for which market quotations are readily available shall be valued using the NASDAQ Official Closing Price. Securities that are not traded or dealt in any securities exchange (whether domestic or foreign) and for which over-the-counter market quotations are readily available generally shall be valued at the last sale price or, in the absence of a sale, at the mean between the current bid and ask price on such over-the-counter market. Debt securities not traded on an exchange may be valued at prices supplied by a pricing agent(s) based on broker or dealer supplied valuations or matrix pricing, a method of valuing securities by reference to the value of other securities with similar characteristics, such as rating, interest rate and maturity.

If market quotations are not readily available, securities will be valued at their fair market value as determined in good faith by the Adviser in accordance with procedures approved by the Board and evaluated by the Board as to the reliability of the fair value method used. In these cases, the Fund’s NAV will reflect certain portfolio securities’ fair value rather than their market price. Fair value pricing involves subjective judgments and it is possible that the fair value determined for a security is materially different than the value that could be realized upon the sale of that security. The fair value prices can differ from market prices when they become available or when a price becomes available. The Board has delegated execution of these procedures to a fair value committee composed of one or more officers or representatives from each of the (i) Trust, (ii) administrator, and (iii) Adviser. The fair value committee may also enlist third-party consultants such as an audit firm or financial officer of a security issuer on an as-needed basis to assist in determining a security-specific fair value. The Board reviews and considers the determinations reached by the fair value committee in ratifying the fair value committee’s application of the fair valuation methodologies employed.

The Fund may use independent pricing services to assist in calculating the fair market value of the Fund’s securities. In addition, market prices for foreign (non-U.S.) securities are not determined at the same time of day as the NAV for the Fund. To the extent the Fund invests in ETFs that hold portfolio securities primarily listed on foreign (non-U.S.) exchanges, the value of some of the Fund’s portfolio securities may change on days when you may not be able to buy or sell Fund shares because these exchanges may trade on weekends or other days when the underlying ETFs do not price their shares.

In computing the NAV, the Fund values foreign (non-U.S.) securities held by the Fund at the latest closing price on the exchange in which they are traded immediately prior to closing of the NYSE. Prices of foreign (non-U.S.) securities quoted in foreign (non-U.S.) currencies are translated into U.S. dollars at current rates. If events materially affecting the value of a security in the Fund’s portfolio, particularly foreign (non-U.S.) securities, occur after the close of trading on a foreign (non-U.S.) market but before the Fund prices its shares, the security will be valued at fair value. For example, if trading in a portfolio security is halted and does not resume before the Fund calculates its NAV, the Adviser may need to price the security using the Fund’s fair value pricing guidelines. Without a fair value price, short-term traders could take advantage of the arbitrage opportunity and dilute the NAV of long-term investors. Fair valuation of the Fund’s portfolio securities can serve to reduce arbitrage opportunities available to short-term traders, but there is no assurance that fair value pricing policies will prevent dilution of the Fund’s NAV by short term traders. The determination of fair value involves subjective judgments. As a result, using fair value to price a security may result in a price materially different from the prices used by other mutual funds to determine NAV, or from the price that may be realized upon the actual sale of the security.

With respect to any portion of the Fund’s assets that are invested in one or more open-end management investment companies registered under the 1940 Act, the Fund’s net asset value is calculated based upon the net asset values of those open-end management investment companies, and the prospectuses for these companies explain the circumstances under which those companies will use fair value pricing and the effects of using fair value pricing.

HOW TO PURCHASE SHARES

Share Classes: This Prospectus describes four classes of shares offered by the Fund: Class A, Class C, Class I, and Class R. The Fund offers these four classes of shares so that you can choose the class that best suits your investment needs. Refer to the information below to help you make your investment decision. The main differences between each class are sales charges, ongoing fees and minimum investment requirements. In choosing which class of shares to purchase, you should consider which will be most beneficial to you, given the amount of your purchase and the length of time you expect to hold the shares. For information on ongoing distribution fees, see the section entitled Distribution Fees in this Prospectus. Each class of shares in the Fund represents an interest in the same portfolio of investments within the Fund. There is no investment minimum on reinvested distributions, and the Fund may change investment minimums at any time. The Fund reserves the right to waive sales charges, as described below. The Fund and the Adviser may each waive investment minimums at their individual discretion. All share classes may not be available for purchase in all states.

Class A

Class A shares are offered at their public offering price, which is NAV plus the applicable sales charge, and are subject to 12b-1 distribution fees of up to 0.25% of the average daily net assets of Class A shares. The minimum initial investment in Class A shares of the Fund is \$2,500 for all accounts. The minimum subsequent investment in Class A shares of the Fund is \$500 for all accounts. The sales charge varies, depending on how much you invest. There are no sales charges on reinvested distributions. The following sales charges, which may be waived in the Adviser's discretion, apply to your purchases of Class A shares of the Fund:

Amount Invested	Sales Charge as a % of Offering Price ⁽¹⁾	Sales Charge as a % of Amount Invested	Dealer Reallowance
Under \$25,000	5.75%	6.10%	5.00%
\$25,000 to \$49,999	5.00%	5.26%	4.25%
\$50,000 to \$99,999	4.75%	4.99%	4.00%
\$100,000 to \$249,999	3.75%	3.83%	3.25%
\$250,000 to \$499,999	2.50%	2.56%	2.00%
\$500,000 to \$999,999	2.00%	2.04%	1.75%
\$1,000,000 and above ⁽²⁾	0.00%	0.00%	See below

- (1) Offering price includes the front-end sales load. The sales charge you pay may differ slightly from the amount set forth above because of rounding that occurs in the calculation used to determine your sales charge.
- (2) A selling broker may receive commissions on purchases of Class A shares over \$1 million calculated as follows: 1.00% on purchases equal to or greater than \$1 million but less than \$3 million, 0.50% on amounts equal to or greater than \$3 million but less than \$5 million, and 0.25% on amounts equal to or greater than \$5 million. The commission rate is determined based on the purchase amount combined with the current market value of existing investments in Class A shares.

As shown, investors that purchase \$1,000,000 or more of the Fund's Class A shares will not pay any initial sales charge on the purchase. However, purchases of \$1,000,000 or more of Class A shares may be subject to a contingent deferred sales charge ("CDSC") on shares redeemed within the first year after their purchase in the amount of the commissions paid on the shares redeemed. The Class A CDSC does not apply if you are otherwise eligible to purchase Class A shares without an initial sales charge or are eligible for a waiver of the CDSC. See "Waiver of Contingent Deferred Sales Charges" below.

How to Reduce Your Sales Charge

You may be eligible to purchase Class A shares at a reduced sales charge. To qualify for these reductions, you must notify the Fund's distributor, Northern Lights Distributors, LLC (the "Distributor"), in writing and supply your account number at the time of purchase.

Rights of Accumulation: To qualify for the lower sales charge rates that apply to larger purchases of Class A shares, you may combine your new purchases of Class A shares with Class A shares of the Fund that you already own where you have paid the applicable sales charge for that prior purchase. The applicable initial sales charge for the new purchase is based on the total of your current purchase and the current value of all other Class A shares that you own where you have paid the applicable sales charge for that prior purchase. The reduced sales charge will apply only to current purchases and must be requested in writing when you buy your shares.

Shares of the Fund are held as follows and cannot be combined with your current purchase for purposes of reduced sales charges:

- Shares held indirectly through financial intermediaries other than your current purchase broker-dealer (for example, a different broker-dealer, a bank, a separate insurance company account or an investment advisor);
- Shares held through an administrator or trustee/custodian of an Employer Sponsored Retirement Plan (for example, a 401(k) plan) other than employer-sponsored IRAs;
- Shares held directly in the Fund account on which the broker-dealer (financial advisor) of record is different than your current purchase broker-dealer.

Letter of Intent: Under a Letter of Intent (“LOI”), you commit to purchase a specified dollar amount of Class A shares of the Fund, with a minimum of \$25,000, during a 13-month period. At your written request, Class A shares purchases made during the previous 90 days may be included. The amount you agree to purchase determines the initial sales charge you pay. If the full-face amount of the LOI is not invested by the end of the 13-month period, your account will be adjusted to the higher initial sales charge level for the amount actually invested. You are not legally bound by the terms of your LOI to purchase the amount of your shares stated in the LOI. The LOI does, however, authorize the Fund to hold in escrow 5% of the total amount you intend to purchase. If you do not complete the total intended purchase at the end of the 13-month period, the Fund’s transfer agent will redeem the necessary portion of the escrowed shares to make up the difference between the reduced rate sales charge (based on the amount you intended to purchase) and the sales charge that would normally apply (based on the actual amount you purchased).

Repurchase of Class A Shares: If you have redeemed Class A shares of the Fund within the past 120 days, you may repurchase an equivalent amount of Class A shares of the Fund at NAV, without the normal front-end sales charge. In effect, this allows you to reacquire shares that you may have had to redeem, without repaying the front-end sales charge. You may exercise this privilege only once and must notify the Fund that you intend to do so in writing. The Fund must receive your purchase order within 120 days of your redemption. Note that if you reacquire shares through separate installments (e.g., through monthly or quarterly repurchases), the sales charge waiver will only apply to those portions of your repurchase order received within 120 days of your redemption.

Sales Charge Waivers

The sales charge on purchases of Class A shares is waived for certain types of investors, including:

- Current and retired directors and officers of any Fund sponsored by the Adviser or any of its subsidiaries, and their families (e.g., spouse, children, mother or father).
- Employees of the Adviser and their families, or any full-time employee or registered representative of the Distributor or of broker-dealers having dealer agreements with the Distributor (a “Selling Broker”) and their immediate families (or any trust, pension, profit sharing or other benefit plan for the benefit of such persons).
- Participants in certain “wrap-fee” or asset allocation programs or other fee-based arrangements sponsored by broker-dealers and other financial institutions that have entered into agreements with the Distributor.
- Participants who have made purchases through a no-load network or platform that may or may not charge transaction fees for such purchases.
- Any purchases by clients of the Adviser or purchases referred through the Adviser.

The Fund does not waive sales charges for the reinvestment of proceeds from the sale of shares of a different fund where those shares were subject to a front-end sales charge (sometimes called an “NAV transfer”). Whether a sales charge waiver is available for your retirement plan or charitable account depends upon the policies and procedures of your intermediary. Please consult your financial adviser for further information.

Class C

Class C shares of the Fund are sold at NAV without an initial sales charge. This means that 100% of your initial investment is placed into shares of the Fund. Under the Fund’s distribution and services plan adopted pursuant to Rule 12b-1 under the 1940 Act, Class C shares pay up to 1.00% on an annualized basis of the average daily net assets as reimbursement or compensation for service and distribution-related activities with respect to the Fund and/or shareholder services. Over time, fees paid under this distribution and service plan will increase the cost of a Class C shareholder’s investment and may cost more than other types of sales charges. Additionally, you normally pay a CDSC of 1.00% if you redeem Class C shares during the first year after your initial purchase. The CDSC on Class C shares is waived for certain categories of investors. See “Waiver of Contingent Deferred Sales Charges” below. The minimum initial investment in Class C shares of the Fund is \$2,500. The minimum subsequent investment in Class C shares of the Fund is \$500.

Years Since Purchase Payment was Made	Dealer Reallowance
First	1.00%
Thereafter	0.00%

A CDSC is imposed on redemptions of Class C shares (and where applicable, Class A shares) on the amount of the redemption which causes the current value of your account for the particular class of shares of the Fund to fall below the total dollar amount of your purchase payments subject to the CDSC.

The following rules apply under the method for calculating CDSCs:

- Shares acquired through the reinvestment of dividends or capital gains distributions will be redeemed first and will not be subject to any CDSC.
- For the redemption of all other shares, the CDSC will be based on either your original purchase price or the then current NAV of the shares being sold, whichever is lower. To illustrate this point, consider shares purchased at an NAV per share of \$10. If the Fund's NAV per share at the time of redemption is \$12, the CDSC will apply to the purchase price of \$10. If the NAV per share at the time of redemption is \$8, the CDSC will apply to the \$8 current NAV per share.
- CDSCs will be deducted from the proceeds of your redemption, not from amounts remaining in your account.
- In determining whether a CDSC is payable, it is assumed that the shareholder will redeem first the lot of shares which will incur the lowest CDSC.

The following example illustrates the operation of the Class C CDSC:

- Assume that an individual opens an account and makes a purchase payment of \$10,000 for 1,000 Class C shares of the Fund (at \$10 per share) and that six months later the value of the investor's account for the Fund has grown through investment performance to \$11,000 (\$11 per share). If the investor should redeem \$2,200 (200 shares), a CDSC would be applied against \$2,000 of the redemption (the purchase price of the shares redeemed, because the purchase price is lower than the current NAV of such shares (\$2,200)). At the rate of 1%, the Class C CDSC would be \$20.

Waiver of Contingent Deferred Sales Charges

The initial sales charges on Class A shares and the CDSCs on Class A and Class C shares may be reduced or waived under certain purchase arrangements and for certain categories of investors. The CDSC applicable to Class A and Class C shares is currently waived for:

- Any partial or complete redemption in connection with (a) required minimum distributions to IRA account owners or beneficiaries who are age 70 1/2 or older or (b) distributions to participants in employer-sponsored retirement plans upon attaining age 59 1/2 or on account of death or permanent and total disability (as defined in Section 22(e) of the Internal Revenue Code) that occurs after the purchase of Class A or Class C shares.
- Any partial or complete redemption in connection with a qualifying loan or hardship withdrawal from an employer sponsored retirement plan.
- Any complete redemption in connection with a distribution from a qualified employer retirement plan in connection with termination of employment or termination of the employer's plan and the transfer to another employer's plan or to an IRA.
- Any partial or complete redemption following death or permanent and total disability (as defined in Section 22(e) of the Internal Revenue Code) of an individual holding shares for his or her own account and/or as the last survivor of a joint tenancy arrangement (this provision, however, does not cover an individual holding in a fiduciary capacity or as a nominee or agent or a legal entity that is other than an individual or the owners or beneficiaries of any such entity) provided the redemption is requested within one year of the death or initial determination of disability and provided the death or disability occurs after the purchase of the shares.
- Any redemption resulting from a return of an excess contribution to a qualified employer retirement plan or an IRA.
- Up to 10% per year of the value of the Fund account that (a) has the value of at least \$10,000 at the start of such year and (b) is subject to an Automatic Withdrawal Plan.
- Redemptions by Trustees, officers and employees of any of the Trust and by directors, officers and employees of the Distributor, the Adviser or its affiliates.
- Redemptions effected pursuant to the Fund's right to involuntarily redeem a shareholder's Fund account if the aggregate net asset value of shares held in such shareholder's account is less than a minimum account size specified in the Fund's prospectus.
- Involuntary redemptions caused by operation of law.
- Redemptions of shares of the Fund that is combined with another investment company, or personal holding company by virtue of a merger, acquisition or other similar reorganization transaction.
- Redemptions by a shareholder who is a participant making periodic purchases of not less than \$50 through certain employer sponsored savings plans that are clients of a broker-dealer with which the Distributor has an agreement with respect to such purchases.

- Redemptions effected by trustees or other fiduciaries who have purchased shares for employer-sponsored plans, the trustee, administrator, fiduciary, broker, trust company or registered investment adviser for which has an agreement with the Distributor with respect to such purchases.
- Redemptions in connection with IRA accounts established with Form 5305-SIMPLE under the Internal Revenue Code for which the Trust is the designated financial institution.
- A redemption by a holder of Class A shares who purchased \$1,000,000 or more of Class A shares (and therefore did not pay a sales charge) where the participating broker or dealer involved in the sale of such shares waived the commission it would normally receive from the Distributor pursuant to an agreement with the Distributor.
- A redemption by a holder of Class A or Class C shares where the participating broker or dealer involved in the purchase of such shares waived all payments it normally would receive from the Distributor at the time of purchase (*i.e.*, commissions or reallowances of initial sales charges and advancements of service and distribution fees).
- A redemption by a holder of Class A or Class C shares where, by agreement with the Distributor, the participating broker or dealer involved in the purchase of such shares waived a portion of any payment it normally would receive from the Distributor at the time of purchase (or otherwise agreed to a variation from the normal payment schedule) in connection with such purchase.

The Distributor may require documentation prior to waiver of the CDSC for any class, including distribution letters, certification by plan administrators, applicable tax forms, death certificates, physicians' certificates (*e.g.*, with respect to disabilities), etc.

Exempt Transactions; No CDSCs or Payments to Brokers

Investors will not be subject to CDSCs, and brokers and dealers will not receive any commissions or reallowances of initial sales charges or advancements of service and distribution fees, on the transactions described below (which are sometimes referred to as "Exempt Transactions"):

- A redemption by a holder of Class A or Class C shares where the participating broker or dealer involved in the purchase of such shares waived all payments it normally would receive from the Distributor at the time of purchase (*e.g.*, commissions and/or reallowances of initial sales charges and advancements of service and distribution fees).
- A redemption by a holder of Class A or Class C shares where, by agreement with the Distributor, the participating broker or dealer involved in the purchase of such shares waived a portion of any payment it normally would receive from the Distributor at the time of purchase (or otherwise agreed to a variation from the normal payment schedule) in connection with such purchase.

Class I

Class I shares of the Fund are sold at NAV without an initial sales charge and are not subject to 12b-1 distribution fees. This means that 100% of your initial investment is placed into shares of the Fund. Class I shares require a minimum initial investment of \$100,000 and the minimum subsequent investment is \$500.

Class I shares are available to certain institutional investors, and directly to certain individual investors as set forth below:

- Institutional investors may include, but are not limited to, corporations, retirement plans, foundations/endowments and investors who purchase through a wrap account offered through a selling group member that enters into a wrap fee program agreement with the Distributor.
- Individual investors include trustees, officers and employees of the Trust and its affiliates, and immediate family members of all such persons.
- Clients of the Adviser or purchases referred through the Adviser.

For accounts sold through financial intermediaries, it is the primary responsibility of the financial intermediary to ensure compliance with eligibility requirements such as investor type and investment minimums.

Class R

Class R shares of the Fund are sold at NAV without an initial sales charge and are subject to 12b-1 distribution fees of up to 0.40% of the average daily net assets of Class R shares. This means that 100% of your initial investment is placed into shares of the Fund. The minimum initial investment in Class R shares of the Fund is \$2,500. The minimum subsequent investment in Class R shares of the Fund is \$500.

Class R shares are available only to certain employer-sponsored retirement, savings or benefit plans held in plan level or omnibus accounts. Class R shares are not available to non-retirement accounts, traditional or Roth IRAs, Coverdell Education Savings Accounts, SEPs, SAR-SEPs, Simple IRAs, individual 403(b)s and most individual retirement accounts.

Factors to Consider When Choosing a Share Class: When deciding which class of shares to purchase, you should consider your investment goals, present and future amounts you may invest in the Fund, and the length of time you intend to hold your shares. To help you make a determination as to which class of shares to buy, please refer back to the examples of the Fund's expenses over time in the Fees and Expenses of the Fund section for the Fund in this Prospectus. You also may wish to consult with your financial adviser for advice with regard to which share class would be most appropriate for you.

Purchasing Shares: You may purchase shares of the Fund by sending a completed application form (the "Application") to the following address:

Regular/Express
Tactical Dividend and Momentum Fund
c/o Ultimus Fund Solutions, LLC
P.O. Box 541150
Omaha, NE 68130

-or-

Overnight Mail
Tactical Dividend and Momentum Fund
c/o Ultimus Fund Solutions, LLC
4221 North 203rd Street
Suite 100
Elkhorn, NE 68022

The USA PATRIOT Act requires financial institutions, including the Fund, to adopt certain policies and programs to prevent money-laundering activities, including procedures to verify the identity of customers opening new accounts. As requested on the Application, you should supply your full name, date of birth, social security number and permanent street address. Mailing addresses containing a P.O. Box will not be accepted. This information will assist the Fund in verifying your identity. Until such verification is made, the Fund may temporarily limit additional share purchases. In addition, the Fund may limit additional share purchases or close an account if it is unable to verify a shareholder's identity. As required by law, the Fund may employ various procedures, such as comparing the information to fraud databases or requesting additional information or documentation from you, to ensure that the information supplied by you is correct.

Purchase through Brokers: You may invest in the Fund through brokers or agents who have entered into selling agreements with the Fund's distributor. The brokers and agents are authorized to receive purchase and redemption orders on behalf of the Fund. Such brokers are authorized to designate other intermediaries to receive purchase and redemption orders on the Fund's behalf. The Fund will be deemed to have received a purchase or redemption order when an authorized broker or its designee receives the order. The broker or agent may set their own initial and subsequent investment minimums. You may be charged a fee if you use a broker or agent to buy or redeem shares of the Fund. Finally, various servicing agents use procedures and impose restrictions that may be in addition to, or different from those applicable to investors purchasing shares directly from the Fund. You should carefully read the program materials provided to you by your servicing agent.

Purchase by Wire: If you wish to wire money to make an investment in the Fund, please call the Fund at 1-844-828-3212 for wiring instructions and to notify the Fund that a wire transfer is coming. Any commercial bank can transfer same-day funds via wire. The Fund will normally accept wired funds for investment on the day received if they are received by the Fund's designated bank before the close of regular trading on the NYSE. Your bank may charge you a fee for wiring same-day funds.

Automated Clearing House (ACH) Purchase: Current shareholders may purchase additional shares via Automated Clearing House (“ACH”). To have this option added to your account, please send a letter to the Fund requesting this option and supply a voided check for the bank account. Only bank accounts held at domestic institutions that are ACH members may be used for these transactions.

You may not use ACH transactions for your initial purchase of Fund shares. ACH purchases will be effective at the closing price per share on the business day after the order is placed. The Fund may alter, modify or terminate this purchase option at any time.

Shares purchased by ACH will not be available for redemption until the transactions have cleared. Shares purchased via ACH transfer may take up to 15 days to clear.

Automatic Investment Plan: You may participate in the Fund’s Automatic Investment Plan, an investment plan that automatically moves money from your bank account and invests it in the Fund through the use of electronic funds transfers or automatic bank drafts. You may elect to make subsequent investments by transfers of a minimum of \$100 on specified days of each month into your established Fund account. Please contact the Fund at 1-844-828-3212 for more information about the Fund’s Automatic Investment Plan.

Minimum and Additional Investment Amounts: The minimum initial investment for Class A, Class C, and Class R shares is \$2,500. The minimum initial investment for Class I shares is \$100,000. The minimum additional investment for Class A, Class C, Class I, and Class R shares is \$500. There is no minimum investment requirement when you are buying shares by reinvesting dividends and distributions from the Fund. The Fund reserves the right to waive or change any investment minimum requirement. These minimum investment requirements do not apply to investors who purchase shares through certain advisory programs offered by financial intermediaries. Investors purchasing shares through these programs should consult their financial intermediary for information about any minimum investment requirements.

The Fund reserves the right, in its sole discretion, to reject any application to purchase shares. Applications will not be accepted unless they are accompanied by a check drawn on a U.S. bank, thrift institutions, or credit union in U.S. funds for the full amount of the shares to be purchased. After you open an account, you may purchase additional shares by sending a check together with written instructions stating the name(s) on the account and the account number, to the above address. Make all checks payable to either the Tactical Dividend and Momentum Fund. The Fund will not accept payment in cash, including cashier’s checks or money orders. Also, to prevent check fraud, the Fund will not accept third party checks, U.S. Treasury checks, credit card checks or starter checks for the purchase of shares. Redemptions of Shares of the Fund purchased by check may be subject to a hold period until the check has been cleared by the issuing bank. To avoid such holding periods, Shares may be purchased through a broker or by wire, as described in this section.

Note: Ultimus Fund Solutions, LLC, the Fund’s transfer agent, will charge a \$25 fee against a shareholder’s account, in addition to any loss sustained by the Fund, for any check returned to the transfer agent for insufficient funds. If your check or electronic payment does not clear, you will be responsible for any loss incurred by the funds and charged a \$25 fee to defray bank charges.

When Order is Processed: All shares will be purchased at the NAV per share (plus applicable sales charges, if any) next determined after the Fund receives your application or request in good order. All requests received in good order by the Fund before 4:00 p.m. (Eastern Time) will be processed on that same day. Requests received after 4:00 p.m. (Eastern Time) will be processed on the next business day.

Good Order: When making a purchase request, make sure your request is in good order.

“Good order” means your purchase request includes:

- the name of the Fund;
- the dollar amount of shares to be purchased;
- a completed purchase application or investment stub; and
- check payable to the “Tactical Dividend and Momentum Fund.”

Retirement Plans: You may purchase shares of the Fund for your individual retirement plans. Please call the Fund at 1-844-828-3212 for the most current listing and appropriate disclosure documentation on how to open a retirement account.

HOW TO REDEEM SHARES

Redeeming Shares: If you hold shares directly through an account with the Fund, you may redeem all or any portion of the shares credited to your account by submitting a written request for redemption to:

Regular/Express

Tactical Dividend and Momentum Fund
c/o Ultimus Fund Solutions, LLC
P.O. Box 541150
Omaha, NE 68130

-or-

Overnight Mail

Tactical Dividend and Momentum Fund
c/o Ultimus Fund Solutions, LLC
4221 North 203rd Street
Suite 100
Elkhorn, NE 68022

Redemptions by Telephone: The telephone redemption privilege is automatically available. If you do not want the telephone redemption privilege, you must indicate this in the appropriate area on your account application or you must write to the Fund and instruct it to remove this privilege from your account. The proceeds, which are equal to number of shares times NAV less any applicable deferred sales charges or redemption fees, will be sent by mail to the address designated on your account or sent electronically, via ACH or wire, directly to your existing account in a bank or brokerage firm in the United States as designated on your application. To redeem by telephone, call the Fund at 1-844-828-3212. The redemption proceeds normally will be sent by mail or electronically within three business days after receipt of your telephone instructions.

During periods of high market activity, you may encounter higher than usual wait times. Please allow sufficient time to ensure that you will be able to complete your telephone transaction prior to market close. Neither the Fund nor its transfer agent will be held liable if you are unable to place your trade due to high call volume.

The Fund reserves the right to suspend the telephone redemption privileges with respect to your account if the name(s) or the address on the account has been changed within the previous 30 days. Neither the Fund, its transfer agent, nor its respective affiliates will be liable for complying with telephone instructions they reasonably believe to be genuine or for any loss, damage, cost or expenses in acting on such telephone instructions and you will be required to bear the risk of any such loss. The Fund or the transfer agent, or both, will employ reasonable procedures to determine that telephone instructions are genuine. If the Fund and/or the transfer agent do not employ these procedures, they may be liable to you for losses due to unauthorized or fraudulent instructions. These procedures may include, among others, requiring forms of personal identification prior to acting upon telephone instructions, providing written confirmation of the transactions and/or tape-recording telephone instructions.

Redemptions through Broker: If shares of the Fund are held by a broker-dealer, financial institution or other servicing agent, you must contact that servicing agent to redeem shares of the Fund. The servicing agent may charge a fee for this service.

Redemptions by Wire: You may request that your redemption proceeds be wired directly to your bank account. The Fund's transfer agent imposes a \$15 fee for each wire redemption and deducts the fee directly from your account. Your bank may also impose a fee for the incoming wire.

Systematic Withdrawal Plan: If your individual account, IRA or other qualified plan account has a current account value of at least \$10,000, you may participate in the Fund's Systematic Withdrawal Plan, an investment plan that automatically moves money to your bank account from the Fund through the use of electronic funds transfers. You may elect to make subsequent withdrawals by transfers of a minimum of \$100 on specified days of each month into your established bank account. Please contact the Fund at 1-844-828-3212 for more information about the Fund's Systematic Withdrawal Plan.

Redemptions in Kind: It is expected that payment of redemption proceeds will normally be made from uninvested cash or short-term investments or proceeds from the sale of portfolio securities. It is possible that stressed market conditions or large shareholder redemptions may result in the need for utilization of the Fund's ability to redeem in kind in order to meet shareholder redemption requests. The Fund reserves the right to honor requests for redemption or repurchase orders made by a shareholder during any 90-day period by making payment in whole or in part in portfolio securities ("redemption in kind") if the amount of such a request is large enough to affect operations (if the request is greater than the lesser of \$250,000 or 1% of the Fund's net assets at the beginning of the 90-day period). The securities will be chosen by the Fund and valued using the same procedures as used in calculating the Fund's NAV. A shareholder may incur transaction expenses in converting these securities to cash.

When Redemptions are Sent: Once the Fund receives your redemption request in "good order" as described below, it will issue a check based on the next determined NAV following your redemption request. The redemption proceeds normally will be sent by mail or by wire within three business days after receipt of a request in "good order." If you purchase shares using a check and soon after request a redemption, your redemption proceeds, which are payable at the next determined NAV following the receipt your redemption request in "good order", as described below, will not be sent until the check used for your purchase has cleared your bank.

Good Order: Your redemption request will be processed if it is in "good order." To be in good order, the following conditions must be satisfied:

- The request should be in writing, unless redeeming by telephone, indicating the number of shares or dollar amount to be redeemed;
- The request must identify your account number;
- The request should be signed by you and any other person listed on the account, exactly as the shares are registered; and
- If you request that the redemption proceeds be sent to a person, bank or an address other than that of record or paid to someone other than the record owner(s), or if the address was changed within the last 30 days, or if the proceeds of a requested redemption exceed \$50,000, the signature(s) on the request must be medallion signature guaranteed by an eligible signature guarantor.

When You Need Medallion Signature Guarantees: If you wish to change the bank or brokerage account that you have designated on your account, you may do so at any time by writing to the Fund with your signature guaranteed. A medallion signature guarantee assures that a signature is genuine and protects you from unauthorized account transfers. You will need your signature guaranteed if:

- you request a redemption to be made payable to a person not on record with the Fund;
- you request that a redemption be mailed to an address other than that on record with the Fund;
- the proceeds of a requested redemption exceed \$50,000;
- any redemption is transmitted by federal wire transfer to a bank other than the bank of record; or
- your address was changed within 30 days of your redemption request.

Signatures may be guaranteed by any eligible guarantor institution (including banks, brokers and dealers, credit unions, national securities exchanges, registered securities associations, clearing agencies and savings associations). Further documentation will be required to change the designated account if shares are held by a corporation, fiduciary or other organization. *A notary public cannot guarantee signatures.*

Retirement Plans: If you own an IRA or other retirement plan, you must indicate on your redemption request whether the Fund should withhold federal income tax. Unless you elect in your redemption request that you do not want to have federal tax withheld, the redemption will be subject to withholding. If you own an IRA, you will be asked whether or not the Fund(s) should withhold federal income tax.

Low Balances: If at any time your account balance falls below \$2,000 (\$1,000 for retirement accounts), the Fund may notify you that, unless the account is brought up to at least \$2,000 (\$1,000 for retirement accounts) within 30 days of the notice, your account could be closed. After the notice period, the Fund may redeem all of your shares and close your account by sending you a check to the address of record. Your account will not be closed if the account balance drops below \$2,000 (\$1,000 for retirement accounts) due to a decline in NAV.

FREQUENT PURCHASES AND REDEMPTIONS OF FUND SHARES

The Fund discourages and does not accommodate market timing. Frequent trading into and out of the Fund can harm the Fund's shareholders by disrupting the Fund's investment strategies, increasing Fund expenses, decreasing tax efficiency and diluting the value of shares held by long-term shareholders. The Fund is designed for long-term investors and is not intended for market timing or other disruptive trading activities. Accordingly, the Fund's Board has approved policies that seek to curb these disruptive activities while recognizing that shareholders may have a legitimate need to adjust their Fund investments as their financial needs or circumstances change. The Fund currently uses several methods to reduce the risk of market timing. These methods include:

- Committing staff to review, on a continuing basis, recent trading activity in order to identify trading activity that may be contrary to the Fund's "Market Timing Trading Policy";
- Rejecting or limiting specific purchase requests; and
- Rejecting purchase requests from certain investors.

Though these methods involve judgments that are inherently subjective and involve some selectivity in their application, the Fund seeks to make judgments and applications that are consistent with the interests of the Fund's shareholders.

Based on the frequency of redemptions in your account, the Adviser or transfer agent may in its sole discretion determine that your trading activity is detrimental to the Fund as described in the Fund's Market Timing Trading Policy and elect to (i) reject or limit the amount, number, frequency or method for requesting future purchases into the Fund and/or (ii) reject or limit the amount, number, frequency or method for requesting future exchanges or redemptions out of the Fund.

The Fund reserves the right to reject or restrict purchase requests for any reason, particularly when the shareholder's trading activity suggests that the shareholder may be engaged in market timing or other disruptive trading activities. Neither the Fund nor the Adviser will be liable for any losses resulting from rejected purchase orders. The Adviser may also bar an investor who has violated these policies (and the investor's financial adviser) from opening new accounts with the Fund.

Although the Fund attempts to limit disruptive trading activities, some investors use a variety of strategies to hide their identities and their trading practices. There can be no guarantee that the Fund will be able to identify or limit these activities. Omnibus account arrangements are common forms of holding shares of the Fund. While the Fund will encourage financial intermediaries to apply the Fund's Market Timing Trading Policy to their customers who invest indirectly in the Fund, the Fund is limited in its ability to monitor the trading activity or enforce the Fund's Market Timing Trading Policy with respect to customers of financial intermediaries. For example, should it occur, the Fund may not be able to detect market timing that may be facilitated by financial intermediaries or made difficult to identify in the omnibus accounts used by those intermediaries for aggregated purchases, exchanges and redemptions on behalf of all their customers. More specifically, unless the financial intermediaries have the ability to apply the Fund's Market Timing Trading Policy to their customers through such methods as implementing short-term trading limitations or restrictions and monitoring trading activity for what might be market timing, the Fund may not be able to determine whether trading by customers of financial intermediaries is contrary to the Fund's Market Timing Trading Policy. Brokers maintaining omnibus accounts with the Fund have agreed to provide shareholder transaction information to the extent known to the broker to the Fund upon request. If the Fund or its transfer agent or shareholder servicing agent suspects there is market timing activity in the account, the Fund will seek full cooperation from the service provider maintaining the account to identify the underlying participant. At the request of the Adviser, the service providers may take immediate action to stop any further short-term trading by such participants.

EXCHANGE PRIVILEGE

Upon request, eligible beneficial holders of Class A Shares may exchange their shares for Class I Shares of the Fund. The Fund will determine the eligibility of an investor to exercise the exchange privilege based on the current NAV of Class A Shares.

Such an exchange will be effected at the NAV of the Class A Shares next calculated after the exchange request is received by the Fund's transfer agent in good order. Shares of each class of the Fund represent equal pro rata interests in the Fund and accrue dividends and calculate NAV and performance quotations in the same manner. The performance of each class is quoted separately due to different actual expenses. The total return on Class I Shares can be expected to differ from the total return on Class A Shares. The Fund reserve the right, at their sole discretion, to change or discontinue the exchange privilege, or temporarily suspend the privilege during unusual market conditions when, in the judgment of management, such change or discontinuance is in the best interests of the Fund. Shareholders who exercise the exchange privilege will generally not recognize a taxable gain or loss for federal income tax purposes on an exchange of Class A Shares for Class I Shares. The exchange privilege is not currently available to beneficial holders of Class C or Class R shares of the Fund.

You may make an exchange request by sending a written request to the Fund's transfer agent or calling the Fund at 1-844-828-3212.

TAX STATUS, DIVIDENDS AND DISTRIBUTIONS

Dividends and Distributions: Income dividends are derived from net investment income (i.e., interest and other income, less any related expenses) the Fund earns from its portfolio securities and other investments. Capital gain distributions are derived from gains realized when the Fund sells a portfolio security. Long-term capital gains are derived from gains realized when the Fund sells a portfolio security it has owned for more than one year, and short-term capital gains are derived from gains realized when a portfolio security was owned for one year or less.

The Fund intends to distribute substantially all of its net investment income and net capital gains annually in December. Both types of distributions will be reinvested in shares of the Fund unless you elect to receive cash.

Taxes: The following information is a general summary for U.S. taxpayers. You should rely on your own tax adviser for advice about the particular federal, state and local tax consequences regarding your investment in the Fund. The Fund will distribute substantially all of its income and capital gains to its shareholders every year. In turn, shareholders generally will be taxed on distributions they receive, unless the shares are held by certain types of tax-exempt organizations or through tax-advantaged accounts (such as 401(k) plan accounts or individual retirement accounts).

A shareholder subject to U.S. federal income tax will be subject to tax on Fund income dividends and capital gain distributions whether they are paid in cash or reinvested in additional Fund shares. For U.S. federal income tax purposes, Fund distributions generally will be taxable to the shareholder as either ordinary income or capital gains. Such dividends and distributions also may be subject to state or local taxes. The Fund must report to the IRS and furnish to shareholders the cost basis information for shares purchased and sold. The Fund has chosen average cost as its standing (default) tax lot identification method for all shareholders, which means this is the method the Fund will use to determine which specific shares are deemed to be sold when there are multiple purchases on different dates at differing NAVs, and the entire position is not sold at one time. Shareholders may, however, choose a method other than the Fund's standing method at the time of their purchase or upon sale of covered shares. Shareholders should consult their tax advisors to determine the best IRS-accepted cost basis method for their tax situation and to obtain more information about how cost basis reporting applies to them. Shareholders also should carefully review the cost basis information provided to them by the Fund and make any additional basis, holding period or other adjustments that are required when reporting these amounts on their federal income tax returns.

Income Dividends and Capital Gains: Fund income dividends (e.g., distributions of investment income) are generally taxable to shareholders as ordinary income.

U.S. federal income taxes on Fund distributions of capital gains are determined by how long the Fund owned the investments that generated the gains, rather than how long a shareholder has owned the shares. Distributions of gains from investments that the Fund owned for more than one year generally will be taxable to shareholders as long-term capital gains. Distributions of gains from investments that the Fund owned for one year or less are short-term capital gains and generally will be taxable as ordinary income.

The Fund may be subject to foreign taxes or foreign tax withholding on dividends, interest and certain capital gains earned from its foreign security investments. You may qualify for an offsetting tax credit or tax deduction under U.S. tax laws for any amount designated as your portion of the Fund's foreign tax obligations, provided that you meet certain requirements. See your tax adviser for further information.

Fund dividends and distributions are taxable to a shareholder even if they are paid from income or gains earned by the Fund prior to the shareholder's investment and thus were included in the price paid for the shares. For example, a shareholder who purchases shares on or just before the record date of the Fund distribution will pay full price for the shares and may receive a portion of his or her investment back as a taxable distribution. While in effect a return of capital to you, the distribution is still taxable even though you did not participate in these gains. You can avoid this, if you choose, by investing soon after the Fund has made a distribution.

Non-U.S. Persons: Non-U.S. persons that are considering the purchase of Fund shares should consult with their own tax advisers regarding the U.S. federal, foreign, state and local tax consequences of the purchase, ownership and disposition of the shares.

Annual Notifications: Each year, the Fund will notify shareholders of the tax status of dividends and distributions. For more information, see the SAI under "TAX STATUS."

DISTRIBUTION OF SHARES

Distributor: Northern Lights Distributors, LLC, located at 4221 North 203rd Street, Ste. 100 Elkhorn, Nebraska 68022 (the "Distributor"), is the distributor for the shares of the Fund. Northern Lights Distributors, LLC is a registered broker-dealer and member of the Financial Industry Regulatory Authority, Inc. ("FINRA"). Shares of the Fund are offered on a continuous basis.

Distribution Fees: Each class of shares of the Fund, other than Class I shares, has adopted a Distribution Plan ("12b-1 Plan" or "Plan"), pursuant to which the Fund may pay the Distributor an annual fee for distribution and shareholder servicing expenses of up to 0.25% of the Fund's average daily net assets attributable to Class A shares, up to 1.00% of the Fund's average daily net assets attributable to Class C shares and up to 0.40% of the Fund's average daily net assets attributable to Class R shares.

The Distributor and other entities are paid under the Plan for services provided and the expenses borne by the Distributor and others in the distribution of Fund shares, including the payment of commissions for sales of the shares and incentive compensation to and expenses of dealers and others who engage in or support distribution of shares or who service shareholder accounts, including overhead and telephone expenses; printing and distribution of prospectuses and reports used in connection with the offering of the Fund's shares to other than current shareholders; and preparation, printing and distribution of sales literature and advertising materials. In addition, the Distributor or other entities may utilize fees paid pursuant to the Plan to compensate dealers or other entities for their opportunity costs in advancing such amounts, which compensation would be in the form of a carrying charge on any un-reimbursed expenses.

You should be aware that if you hold your shares for a substantial period of time, you may indirectly pay more than the economic equivalent of the maximum front-end sales charge allowed by FINRA due to the recurring nature of distribution (12b-1) fees.

Additional Compensation to Financial Intermediaries: The Adviser, the Distributor and their affiliates may, at their own expense and out of their own legitimate profits, provide additional cash payments to financial intermediaries in connection with the sale or retention of Fund shares, including affiliates of the Adviser. Financial intermediaries include brokers, dealers, financial planners, banks, insurance companies, retirement or 401(k) plan administrators and others. These payments may be in addition to the Rule 12b-1 fees and any sales charges that are disclosed elsewhere in this Prospectus. These payments are generally made to financial intermediaries that promote the sale of Fund shares, provide shareholder or administrative services, or marketing support. Marketing support may include access to sales meetings, sales representatives and financial intermediary management representatives, inclusion of the Fund on a sales list, including a preferred or select sales list, or other sales programs. These payments also may be made as an expense reimbursement in cases where the financial intermediary provides shareholder services to Fund shareholders. The level of payments made to financial intermediaries in any given year will vary.

To the extent permitted by Securities and Exchange Commission and FINRA rules and other applicable laws and regulations, the Adviser, the Distributor and their affiliates may, from time to time, provide promotional incentives to certain investment firms. Such incentives may, at the Adviser's, the Distributor's or their affiliates' discretion, be limited to investment firms who allow their individual selling representatives to participate in such additional commissions.

Householding: To reduce expenses, the Fund mails only one copy of the Prospectus and each annual and semi-annual report (or, if applicable, each notice of electronic accessibility thereof) to those addresses shared by two or more accounts. If you wish to receive individual copies of these documents, please call the Fund at 1-844-828-3212 on days the Fund is open for business or contact your financial institution. The Fund will begin sending you individual copies thirty days after receiving your request.

FINANCIAL HIGHLIGHTS

The financial highlights table is intended to help you understand the financial performance of the Fund for the period of the Fund's operations. Certain information reflects financial results for a single Fund share. The total returns in the table represent the rate that an investor would have earned (or lost) on an investment in the Fund (assuming reinvestment of all dividends and distributions). The information for the year ended July 31, 2022, has been derived from the financial statements audited by BBD, LLP, whose report, along with the Fund's financial statements and related notes, are included in the Fund's July 31, 2022, annual report, which is available upon request and is incorporated by reference in the SAI. The information for the years ended July 31, 2021, 2020, 2019, and 2018, have been derived from financial statements audited by the Fund's prior auditor, Grant Thornton, whose report, along with the Fund's financial statements, is included in the Fund's July 31, 2021 annual report, which is available upon request and is incorporated by reference in the SAI.

Total distributions	(1.69)	—	(0.05)	(0.00) ⁽³⁾	(0.03)
Net asset value, end of year	\$ 11.31	\$ 13.57	\$ 10.54	\$ 10.87	\$ 11.15
Total return ⁽⁴⁾	(4.89)% ⁽⁵⁾	28.75% ⁽⁵⁾	(2.63)%	(2.48)%	13.28%
Net assets, at end of year (000's)	\$ 7,229	\$ 6,928	\$ 8,669	\$ 12,038	\$ 13,867
Ratio of expenses to average net assets ⁽⁶⁾	1.56%	1.68%	1.66%	1.64%	1.62%
Ratio of net investment income (loss) to average net assets ^(6,7)	(0.72)%	(0.30)%	(0.11)% ⁽²⁾	0.14%	0.13%
Portfolio Turnover Rate	406%	64%	293%	226%	48%

(1) Per share amounts calculated using the average shares method, which appropriately presents the per share data for the period.

(2) The amount of net investment loss on investment per share for the period ended does not accord with the amounts in the Statements of Operations due to the timing of purchases and sales of Fund shares in relation to fluctuating market values.

(3) Represents less than \$0.005 per share.

(4) Total returns are historical in nature and exclude the effect of applicable sales charges and assumes reinvestment of dividends.

(5) Includes adjustments in accordance with accounting principles generally accepted in the United States and, consequently, the net asset value for financial reporting purposes and the returns based upon those net asset values may differ from the net asset values and returns for shareholder transactions.

(6) The ratios of expenses and net investment income/(loss) to average net assets do not reflect the Fund's proportionate share of income and expenses of underlying investment companies in which the Fund invests.

(7) Recognition of net investment income by the Fund is affected by the timing and declaration of dividends by the underlying investment companies in the Fund invests.
